Sustained Thinking

THE COMPANY

Ampack Zimbabwe Limited is an industrial quality and packaging solution service provider with a core focus in the supply of metal crown caps for the beverage industry, among other packaging products across the industry.

VISION

To provide packaging solutions to all industries across Zimbabwe and into the region.

MISSION

To help our clients create high level of economic value, and that together we set and sustain efficient new standards of excellence in our respective sectors.

OUR VALUES

- 1 A commitment to providing outstanding service
- 2 Striving to ensure the best way forward and efficient supply
- 3 Making a valuable contribution to the community we operate in
- 4 Operating in integrity at all times

MAIN SERVICES

Crown Caps

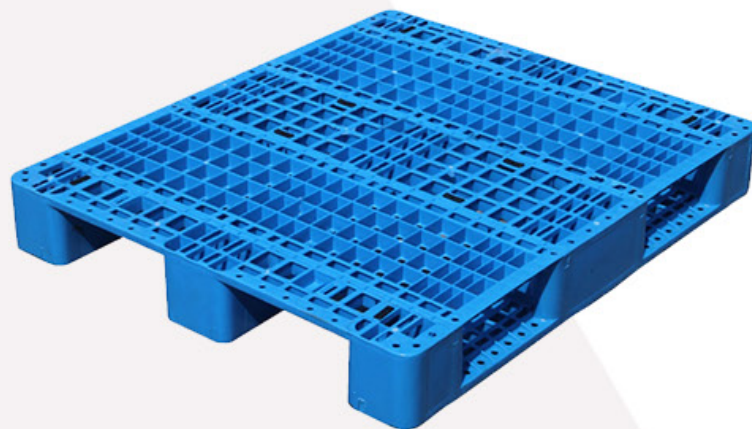

Ampack Zimbabwe works in conjunction with one of the leading manufacturers in the production of metal caps for the beverage industry. Our supplier is equipped with state of the art laboratory that fulfills international standards of the beverage industry. Quality and reliability is key to our crown caps supply.

Pressure Sensitive Labels

Ampack supplies self-adhesive labels for the beverage industry with a main thrust on pressure sensitive labels. We focus on having production of quality products through innovation and excellent supply chain.

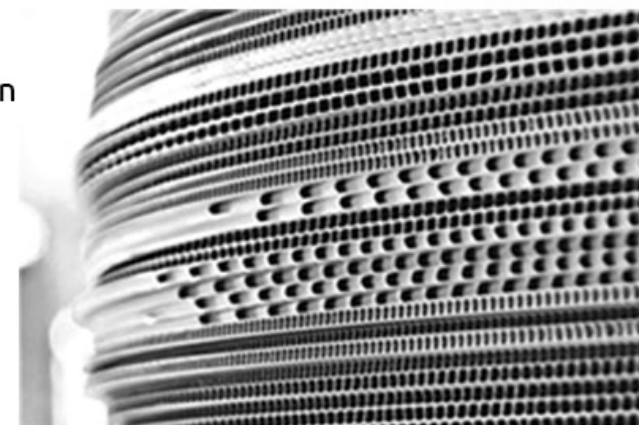

Industrial Plastic Pallets

Ampack pallets supplies multi-purpose racking and transporting pallets. The plastic pallets are compliant with the consumer health and food safety HACCP standards. We also rebuy every single pallet supplied with the same raw material (HDPE) for recycling.

Polyracks

Polyracks also known as slip-sheets or layer pads are widely used in the PET bottling Industries. For stacking bottles for storage and transportation purposes. These sheets are lightweight and stackable cost for effective storage and return transportation.

Quality Control Systems

Metal Detection

Fortress Metal Detectors detect and reject ferrous and non-ferrous metals including stainless steel in industries such as bakery, meat processing and dairy industries using precision Digital Signal Processing Technology.

Package leak detection

Package leak detection is an integral part of quality assurance – both for food packaging and sensitive packaged products. Ampack's Witt leak detection solutions prevents returns, image damage and worst case scenario loss of customers. Our leak detection solutions are for both Modified Atmosphere Packaging (MAP) and the Vacuum Packaging (VP).

X-Ray Inspection Systems

Ampack's x-ray systems provides unsurpassed foreign body contamination detection and automatic rejection for product contaminants, regardless of their size, shape or location, within a variety of applications glass shards, metal fragments, mineral stones, plastic and rubber compounds.
